My artworks usually contain lyrics and verses that I encounter in my daily life and which impress me. The content is dependent on my personal preference, life experience and the trend of the time.</p> <p>I like to present my artworks through Chinese calligraphy because calligraphy uses words and words can convey the messages and emotion of the artists directly to the audience. I am a person who likes to express my feelings. Therefore, I believe Chinese calligraphy is the most appropriate medium for me.</p> <p>There is an enormous change in Chinese characters from what is considered as the tradition to contemporary. Different forms of Chinese characters were attached to different periods of time. As Chinese, we should uphold Chinese culture and promote Chinese art whenever possible. I believe creating a new presentation by integrating an ancient art with a modern art would be a special concept that people find it fun, thereby arousing their interest. I therefore wrote lyrics of modern popular songs in seal script. I applied the new concept to an art piece in a competition in 2018 and I was awarded the Ting Yen Yung Creative Award.</p> <p>I would like to express my sincere gratitude to CUHK Convocation for awarding me the CUHK Convocation Creativity Student Award in the Humanities. The award is a great encouragement to me.</p>
