

CUHK Convocation Outstanding Campus Services Award

I would like to express my gratitude to the committee of CUHK Convocation Outstanding Services and Creativity Award for their recognition. This is undoubtedly my honour to be selected as one of the recipients of the scholarship and it encourages me to seek chances to sincerely serve my schoolmates.

In this one and a half year, I gain a fruitful university life as I hope to devote myself to my college and activities in my interested fields. I was elected as the president of the student union in Chung Chi College and helped to coordinate different societies and organize activities, and also to maintain a good diplomatic relationship with other student unions in CUHK. We hoped to work as a bridge, effectively connecting students and our college and also facilitating their communication. We are responsible for safeguarding our schoolmates' rights and interests, and also showing concerns about current issues. We usually organized consultations and conducted surveys to collect students' opinions on different related issues. We voice out their wills to our college and our university, such as schoolmates' opinions for the election of our new college head, and their objection to the reclamation plan in Ma Liu Shui.

Meanwhile, I am glad to join different student activities to serve for other schoolmates. I joined two orientation camps to serve the new freshmen in this year. In addition, I love arts and I would like to devote myself to fields giving me spiritual satisfaction. I joined an annual production in New Asia drama society and learned a lot about theatre. Arts should not remain in a self-isolated state but should become a common cultural channel to arouse people's consciousness of the community and their motivation to contribute. It applies to literature as well, thus I joined "the word of power" and became a voluntary helper. We copy poems to campus buildings' walls and organize interactive activities to arouse people's interest in literature, such as competitions and seminars.

This is definitely an honor for me to be given this precious chance to apply for this scholarship and I would cherish this opportunity to strive for excellence and endeavor to fulfill my civic responsibility faithfully.
