<p>I am truly humbled and honored to be awarded the Outstanding Services award by the Convocation and thrilled to be motivated to make meaningful contributions to the CUHK community. Thank you again for this incredible recognition by the University and the CUHK Convocation, and I will continue to strive for excellence, serve with passion, and make positive differences in everything I do.</p> <p>I always believe serving others is not just a duty, but a joy that I eagerly look forward to. There is something special about seeing the smiles on others' faces when I help them in a moment of need or simply make their campus life better.</p> <p>During my service at Shaw College, I was the President of the Shaw College Student Union and now the Chairperson of the Shaw College Student Union Representative Council. I act as the liaison among students, the college, and the university by voicing students' opinions in various college and university committees. Besides, I was also responsible for holding by-elections and general elections for the student parties in my time as the Chairperson of the Election Committee of the Council.</p> <p>At the University level, I served as the Convenor of the Joint-College Student Unions Working Group for three consecutive years, which aims to rebuild the Student Union of the Chinese University. Other than working on the rebuilding of CUSU, I was also responsible for the CUHK Art Fair for both 2022 and 2023. The Art Fairs were concluded successfully with over 80 student societies and clubs holding their booths, promoting themselves each year. It is estimated over 3000 students participate in the Fair every year to familiarize themselves with different student bodies and watch the live performances by guests and student groups.</p> <p>I am still working hard on the rebuilding of CUSU including modifying the new CUSU Constitution, helping with the open recruitment for over 20 University committees, and providing suggestions for the selection procedures of the CUHK Council student representatives. It is always my earnest hope to see the new CUSU fully operate soon and advocate for the best interest of the CUHK community.</p>	

Being the person in charge of the CUHK Art Fair 2022 as the previous organizer, the Student Union of the Chinese University (CUSU) has not been functioning since the end of 2021. (Left)
