

**CUHK Convocation Outstanding Services
and Creativity Student Awards 2016/17**
香港中文大學校友評議會傑出服務及創意學生獎 2016/17

Name 姓名	To Sum Yu 杜森宇
Major 主修	Statistics 統計學

I would like to express my sincere gratitude towards CUHK Convocation. I am so honoured to be granted the award. This is a huge encouragement to know that my service is appreciated.

I believe the College system is an interesting feature of CUHK. It provides a good opportunity for students to learn from friends of different disciplines and broaden our horizons. Therefore, I am determined to devote myself to College-based activities.

For two years, I have run for the executive committee of college student union. As the President of Shaw College Student Union, I have led the executive committee to organize activities for fellow students and coordinate with staff in policy making of different aspects of school affairs. I and my executive committee are also concerned with school affairs, such as transport, hostel management, student canteen, etc. To facilitate the liaison between students and staff, we have served on different committees of College or University to present the opinions and suggestions collected from our students. We believe that by considering their best interest, we can make our beloved university a better place to facilitate our growth and learning.

I had joined the organizing committee of Shaw College Orientation Camp and Shawlane, an annual fun fair. Those are College-based activities which foster students' self-development and enable students to enjoy their College life.

As “protecting the environment” is one of the five pillars of Shaw College, I applied for College’s Subsidy Scheme on Environmental Sustainability Projects with a couple of friends. We hoped to raise our students’ awareness of environmental protection, and therefore we organized the hostel recycling scheme with the help of some volunteers. We asked residential students to recycle reusable materials at the end of semester and then the next semester, we gave them to new residents. Many students have benefitted from our scheme and collected useful items gratefully. We believe this scheme have considerably reduced waste produced in hostel. And we are glad that many of them have recognized the importance and benefits of environmental protection.

Serving our campus is challenging yet enjoyable. I am grateful to have the chance to contribute. There are always rooms for improvement in every aspect, so I will try my very best to continue and help, hoping to make the university and college a wonderful place for our fellow students.

Delivering a short speech introducing Shaw College to freshmen.

(I am the student with glasses.)
Registering freshmen into Shaw College Orientation Camp on Day 1.
