Serving the community of CUHK has always been my focus of university life, since year one, I have dedicated myself in serving New Asia College and CUHK through different posts in the Students' Union. Though not every term of my service ended in success, I have utilised every chance to speak out for students and maintain dialogue with both the College and University management.

During my service in New Asia, I utilised my position in the students' union to participate in different sub-committees of the Assembly of Fellows, with the hope to represent students' voices. I had also actively worked with the Dean of New Asia College on tackling difficult issues, for instance, the setup of the Non-Residential Hall committee, to improve the usage of Non-Residential Hall. Apart from working with the college management, I spent most of my time assisting the mass activities held by students. The joy of serving my fellow schoolmates will always be kept in my heart.

In the central level, I had served in The Council of the Students' Union of The Chinese University for three consecutive terms, as a secretary in my first term and as Council Chairperson cum acting president in my final term. During my time as acting president, I had arranged meetings with various stakeholders within and outside of the University, including different student bodies and lawyers, with the hope of meeting the demands of the University while safeguarding the core interests of the students, and ultimately maintaining the survival of the students' union. After balancing different options, I and my fellow student representatives could only disband the CUSU with huge regret, in order to avoid another major clash with the University that may lead to unimaginable consequences for both sides. I am currently working with different student groups in the university, in hope of sowing the seed for the reformation of CUSU in the near future.

I am very thankful to be awarded The CUHK Convocation Outstanding Services Student Awards. It is a recognition for all students who contributed to the community of CUHK. I will continue my hard work in the future, with the hopes of becoming an alumnus that can share and enlighten the upcoming CUHKers.

The student union worked closely with student leaders of the mass activities to hold a night fun fair using the theme of Pokémon, where students can sell foods and handcraft items.
